### **A. The way to improve the efficiency of your Dehumidifier:**

1. Close the doors and windows where you run this room dehumidifier
2. Keep the front air inlet and the back outlet of this electric dehumidifier free from blocking
3. Run your Home dehumidifier when temperature is more than 15 C and humidity is more than 45%, over 60% the effect will be better.
4. Best for spaces such as dressing rooms, bedrooms, storerooms, bathrooms, etc.

#### **NOTE:**

The effect of this dehumidifier is related to the temperature, the humidity and the size of the room.

The more humid, the better effect.

Ensure the dehumidifier is Off and unplugged from the wall socket and use a soft cloth to clean away dust or debris from the surface of the unit and air inlets.

### **FEATURE**

#### **【HIGHLY EFFICIENT DEHUMIDIFICATION】**

Portable dehumidifier with a capacity of 1,2 liters dehumidifies up to 600 ml per day. The dehumidifier is suitable for wardrobe, bedroom, storage, bathroom, closets, caravans, etc. Keep humidity below 45% powerful performance to remove moisture in the air.

**【COLOR NIGHT LIGHTS & AUTO OFF】** Our electric dehumidifier has 7 change lights (which could be fixed), this bedroom dehumidifier creates a sweet and romantic sleeping atmosphere for you. Automatic shut-off function to prevent water overflow. It is also very safe and convenient to use when you are not at home.

**【TWO MODES OF OPERATION & ULTRA QUIET】** The dehumidifier is designed with high speed and night mode which meets all kinds of dehumidification requirements of different people. You can freely switch between 2 modes. The night mode is extremely quiet, with quiet mode and sleep mode, suitable for bedrooms and offices.

#### **【SPACE SAVING & PORTABLE】**

Ideal for controlling humidity in your home, such as kitchen, bathroom, bedroom, basement, garage, closet.

**【CREATE HEALTHY & COMFORTABLE ENVIRONMENT】** According to research, if the humidity in the air is more than 50% it can create discomfort or health problems.

#### **On/ Off button**

On/ Off button, Press to power on.

#### **LED light mode**

Open LED light.

Click again to exit.

If you like a single color, you can lock a color. When you like a certain color, you just have to wait for the light to automatically change to it, then press the light button to pause on the color you

like. If you like multiple colors, you can set the light to change automatically. Or you can click to turn off the lights.

### **Night mode**

Press the night mode, the lights will all turn off.

The sound will decrease, the speed will change to low speed.

Press again to return to normal.

(NOTE: When the idle mode is on, the dehumidification effect is weaker than in the normal mode, and it will take longer to dehumidify)

### **Red light and warning sound**

When the water tank is full, reach the water tank or the water tank is in the wrong position, the red light will be on, and a warning sound will indicate that the water tank is full. You must empty the water from the water tank and put it back into the Dehumidifier to start the Dehumidifier.

### **HOW TO REMOVE THE WATER TANK**

- 1. When the water tank is full, the red LED will flash, and the dehumidifier will stop working automatically. First, unplug the adapter.**

- 2. Second, remove the water tank.**

3. Third, remove the water tank cover and discard the collected water.

4. Fourth, put the cover back on the dehumidifier. To resume dehumidification, connect the adapter and press the ON/OFF button again.

#### TROUBLESHOOTING

Problem	Possible cause	Solution
The red LED first flashes red when the power is connected	The water tank is full	Empty the water tank and put is in the right place
	The float is jamming	Press the float
The dehumidifier doesn't work	The power supply is interrupted	Check that the adapter is connected
	Loss of power in the DC outlet	Check the DC outlet and the power cord, make sure it is connected well
	The air outlet is blocked	Maintain a minimum distance of at least 10 cm around the dehumidifier when the unit is operating

## **CLEANING AND MAINTENANCE**

Before cleaning and maintenance, remove the plug from the socket. Wipe the device shell with a soft damp cloth, do not use abrasive and re-solvent, otherwise, the device will be damaged.

## **DISPOSAL**

### **IMPORTANT INFORMATION FOR CORRECT DISPOSAL OF THE PRODUCT IN ACCORDANCE WITH EC DIRECTIVE 2002/96/EC.**

At the end of its working life, the product must not be disposed of as urban waste. It must be taken to a special local authority differentiated waste collection centre or to a dealer providing this service.

Disposing of a household appliance separately avoids possible negative consequences for the environment and health, deriving from inappropriate disposal and enables the constituent materials to be recovered to obtain significant savings in energy and resources. As a reminder of the need to dispose of household appliances separately, the product is marked with a crossed-out wheeled dustbin.
