**Please keep this manual carefully for further reference!**

**Thank you for selecting our dehumidifier. Be sure to read this manual carefully before using it. Any questions, please contact the professional service for help.**

## SAFETY INSTRUCTIONS

To reduce the risk of fire, electric shock, or other injury, follow all safety instructions and guidelines.

### INTENDED FOR USE

The dehumidifier is the solution to moisture problems such as wardrobe, bedroom, storage room, bathroom, wardrobes, caravans etc. It also helps eliminate musty odors and prevent mildew growth. It's lightweight and easy to carry where you need it most. Dehumidify improve your home environment.

### IMPORTANT SAFETY INSTRUCTIONS

1. This device is intended for domestic use. Always store the device in an upright position to avoid water leakage.
2. Avoid using the power plug in a wet or damp place and place it in places where there is good ventilation.
3. Do not block the air inlet and outlet of the dehumidifier. do not insert foreign objects into the air outlet, as this will lead to damage.
4. The dehumidifier must be placed on a flat surface. otherwise, the water will overflow. When this dehumidifier is not used for a long time, please make sure the water tank is drained.
5. Children should not use this product alone and should not play with it.

### THE WAY TO IMPROVE THE PERFORMANCE OF YOUR HEATER

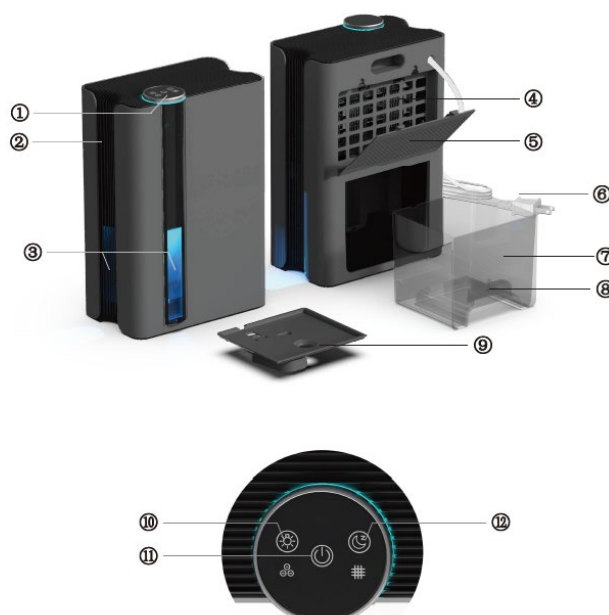

1. Close doors and windows where you use this room dehumidifier.
2. Keep the front air inlet and rear outlet of this electric dehumidifier free from blockages
3. Operate the home dehumidifier when the temperature is higher than 15'C and the humidity is higher than 45% versus 60%, the effect will be better.
4. Best for spaces like dressing rooms, bedrooms, storage rooms, bathrooms, etc.

### NOTE

1. The effect of this dehumidifier is related to the temperature, humidity, and size of the room.
2. The wetter, the better the result.
3. Make sure the dehumidifier is turned off and unplugged and use a soft cloth to clean any dust or debris from the surface of the unit and the air intakes.

## FEATURE

### COLORED NIGHT LIGHTS & AUTOMATIC CLOSE

Our electric dehumidifier has 7 change lights (which could be set to steady on), this bedroom dehumidifier creates a sweet and romantic sleeping atmosphere for you, auto-off function to prevent water overflow. It is also very safe and convenient to use when you are not at home.

### TWO OPERATING MODES & ULTRA QUIET

The dehumidifier is designed with high speed and night mode which meets all kinds of dehumidification requirements of different people. You can freely switch between 2 modes. The night mode is super quiet, with quiet mode and sleep mode, suitable for bedrooms and offices.

### SPACE SAVING & PORTABLE

Ideal for controlling humidity in your home, such as kitchen, bathroom, bedroom, basement garage, closet.

### CREATE A HEALTHY & COMFORTABLE ENVIRONMENT

According to research, if the air humidity is over 50% it can create discomfort or other health problems. The dehumidifier will start to work and collect the moisture and release clean air, providing you with a healthy and comfortable environment.

## FUNCTION DISCRPTION

### ON/ OFF BUTTON

On/Off button, press to activate. LED Atmosphere light on. Click again to shut down.

### LED LIGHT BUTTON

If you like a single color, you can lock a color. When you like a certain color, you just have to wait for the light to automatically change to it, then press the light button to pause on the color you like. If you like multiple colors, you can set the light to change automatically. Or you can click to turn off the lights.

### NIGHT MODE BUTTON

Press the night mode, the lights will all turn off. The sound will decrease, the speed will change to low speed, press again to return to normal. (NOTE: When the sleep mode is on, the dehumidification effect is weaker than in the normal mode, and it will take longer to dehumidify).

### NEGATIVE IONLAMP

The dehumidifier is equipped with a negative ion generator that automatically emits negative ions when you turn on the machine, making the air fresher. (NOTE: This is the negative ion operation indicator light, not the button).

## # FILTER SCREEN LAMP

The filter light mentions the user that there is an air filter inside the dust screen on the back of the dehumidifier (NOTE: This is a filter reminder light, not a button and touch is invalid).

After opening it for some time, it should be cleaned with air (no water) to prevent it from being blocked. If the carbon filter is blocked, it will affect the dehumidification effect of the dehumidifier. For reuse or replaced every 12 months to ensure clean air. (You can also contact us to purchase accessories).

### RED PHOTO AND WARNING SOUND

When the water tank is full, reach the water tank or the water tank is in the wrong position, the red light will be on, and a warning sound will indicate that the water tank is full. You must drain the water from the water tank and put it back into the Dehumidifier to start the Dehumidifier.

### HOW TO REMOVE THE WATER CONTAINER AND DUMP THE WATER

1. When the water tank is full, the red LED light will flash, and the dehumidifier will stop working automatically. First, disconnect the plug from the outlet.
2. Second, remove the water tank.
3. Third, remove the water tank cover and discard the collected water.
4. Fourth, put the cover back on the dehumidifier. To continue dehumidification, connect the power plug and press the "ON/OFF" button again.

### HOW TO USE DRAINPIPES

5. Pull out the water tank from the back of the dehumidifier.
6. 7. 8. Open the water tank cover, empty the water tank, and remove the water tank cap. Install the drainpipe and cover the water tank cover.
9. Push the water tank with the installed drainpipe into the dehumidifier in the direction shown in the picture, connect the drainpipe to the drain, then you can turn on the dehumidifier to continue using it.

### CLEANING AND MAINTENANCE

Before cleaning and maintenance, remove the plug from the socket. Wipe the device shell with a soft damp cloth, do not use abrasive and re-solvent, otherwise the device will be damaged.

## SPECIFICATIONS

MODEL	R-9008
DEHUMIDIFICATION (ml/h)	900ml/24h
RATED POWER (W)	85 W
RATED VOLTAGE (V)	AC 120 V, 60 Hz
PRODUCT SIZE (cm)	205x158x355 mm
NET/GROSS WEIGHT	2,6/2,9kg

## DISPOSAL

### IMPORTANT INFORMATION FOR CORRECT DISPOSAL OF THE PRODUCT IN ACCORDANCE WITH EC DIRECTIVE 2002/96/EC.

At the end of its working life, the product must not be disposed of as urban waste. It must be taken to a special local authority differentiated waste collection centre or to a dealer providing this service.

Disposing of a household appliance separately avoids possible negative consequences for the environment and health, deriving from inappropriate disposal and enables the constituent materials to be recovered to obtain significant savings in energy and resources. As a reminder of the need to dispose of household appliances separately, the product is marked with a crossed-out wheeled dustbin.
